Collier Farms

BEEFMASTERS

Beefmaster Friends and Fellow Cattlemen,

On behalf of Collier Farms and the Advantage Program Breeders, please accept this invitation to attend the 2021 Advantage Sale to be held on April 10, 2021 at the CF "Homestead Division" Ranch in Giddings, Tx.

*Breeding Productive
Profitable Cattle*

FOCUS ON THE FEMALE

This year brings in a great deal of excitement surrounding Beefmasters, likewise, this year brings to the Advantage Sale a renewed focus on **Strengthening Beefmaster Maternal Genetics**. Our offering is truly the result of infusing more modern performance genetics and strengthening the maternal attributes that make the Beefmaster momma cow the Best in the industry- Bar none!

CUSTOMER DRIVEN OFFERING

Our primary goal is customer satisfaction. With that in mind, we have again expanded the offering to over 100 lots of females; all meant to provide you, our valued customer, with more to choose from regardless of the size of your operation, large or small.

We are offering pairs with genetically superior calves; all with their first calf showing that the proof is in the offspring. The bred heifers in the offering have been bred to low birthweight, new generation Collier Farms bulls and are all palpated safe-in-calf so there is **no guesswork involved**.

Likewise, the open heifers represent the future of the Collier Farms Advantage Program and are the cream of our crop.

ADVANTAGE PROGRAM

The Advantage program has and always will be **rooted in the needs and demands of the commercial cattle industry**. We believe, more than ever, that the Beefmaster Advantage for the future lies in our ability to continue to prove our relevance (and rightful place) in the commercial cattle industry. Our Advantage Breeders are progressive and work hard to improve the Beefmaster Breed. The cattle offered come from a herd health, disease surveillance and vaccination program designed to protect the calves while in the cow and on the side of the cow. Together with our Advantage Breeders, we want to **go the extra mile** to provide quality and Future marketing opportunities for your cattle.

COME SEE US

Feel Free to be our guest or load up the family and come to Giddings; we'll have the cattle in the traps so you can get a good look at 'em. Whether you are a repeat customer or new to the Advantage Sale, we thank you for your interest in our cattle.

We look forward to seeing you and working together **building a Better Beefmaster!**

Collier Farms Advantage Program

The **Collier Farms Advantage Program** is a simple yet exciting new customer dedication program designed to enhance the potential marketing opportunities for breeders using Collier Farms genetics. The program will feature exclusive sales opportunities like the Advantage Sale, buy-back offers, cooperative performance testing through bull development programs and gain tests, as well as marketing assistance and genetic promotion of Collier Farms based cattle.

The central focus of the program is to assist Beefmaster breeders in the endeavor of realizing the true potential of their product. Because we at Collier Farms understand the many production and marketing challenges facing producers of all sizes, this program was created to provide a variety of marketing avenues, cattle development options and product support essential to profitability and overall success.

The underlying beauty behind the **Collier Farms Advantage**

Program is its simplicity and ease of use. From the beginning, NO exclusive participation levels or highly regulatory mandates were created. It is as basic as implementing ANY Collier Farms bred animal into your program. Simply put, any animal a breeder produces from a Collier Farms bred sire or dam qualifies for the Advantage Program. All calves from Collier Farms bulls, cows, semen or embryos have met the essential requirements of the program. There are NO membership fees or hidden costs.

Once a breeder has a qualified animal there are no limits or restrictions as to when, where or how they choose to market THEIR product. The **Advantage Program** only offers additional avenues or options in which breeders can take ADVANTAGE. Currently, producers can place bull calves in the Collier Farms performance gain test and sale, make plans to reserve a place in the upcoming Advantage Female Sales, or inquire about the buy-back offers available.

For more information about Collier Farms genetics contact us at www.collierfarmsbeefmasters.com or call the ranch at 979-251-4175.

DNA Abbreviations & Meanings

PV = parent verified to both sire and dam

SV = verified to sire only at this time

DV = verified to dam only at this time

PO = profile only - parentage undetermined at this time

Pending = DNA is being reviewed for various reasons or has not been processed at catalog time.

**Note: SV, DV, PO, and Pending notations do not mean an animal can not or will not be parent verified but does mean that there is NO guarantee in the future that a sample can be obtained on a parent or can be verified to such.*

Collier Farms ADVANTAGE SALE

Maternal Reference

JT Madam Secretary 659

Sire: **Captain Sugar (**Infinity x **Sugar Ann)

Dam: **Oasis (**Cavalier x **Sex Life)

Madam Secretary continues to command attention through her impeccable production and volume of excellence. This elite individual has established her own reputation in the industry as one of the most prolific and profitable individuals within more than just one herd. From her early beginnings at J&T and now her reign as queen at Collier Farms, Madam Secretary is setting new benchmarks from which all future donors will be measured. Consider all the high selling bulls and females you've seen in past events and then study the vast number of high caliber cattle offered here, and you will have to agree that her record of excellence may be unmatched. *Dam of lots 1A-G, 2A & 2B, 41, 93.*

CF Vivid Oasis 713

Sire: **Infinity (**Red Sugar x **Vanna)

Dam: **Oasis (**Cavalier x **Sex Life)

With the undeniable quality produced by her sister, it was mandatory that Collier Farms acquire this great female to add to the relentless donor power of the Collier Farms arsenal. Vivid Oasis was purchased from Cottage Farms as a young pair with an amazing heifer calf at side. Since that time, Vivid Oasis has begun to create her own dynasty within the program and will soon be making an impact on the breed. Just look at the consistency of quality and performance in the progeny she is offering. From upcoming herd sires to top end donor prospects, Vivid Oasis will be leading the charge into the next round of production. Study how well this cow works with a variety of sires and you will want to put these genetics to work for you. *Dam of lots 3A & 3B, 4A & 4B, 13, 42A, 42B & 42C.*
Daughter pictured: Lot 4B - CF 727/0.

*Diamond Maiden 1931/4

Sire: **Cavalier (**Spartacus x **Lazy M 1-5/5)

Dam: **L2 Maiden Lady (**Synergy x ** *Infinite Lady)

One of the strongest and most consistent crosses in the Beefmaster breed is Cavalier back on Synergy and Infinity lines. This tremendously productive female is the epitome of that consistency and she is passing those same traits to her offspring. Diamond Maiden has proven that she can be mated to a number of bulls and the results are always high quality and productive offspring. At over 14 years of age, she is still going strong and her legacy will continue on long after she is gone. *Dam of lots 48 & 49.*

Daughter pictured: Lot 48 - CF 195/9.

Infinite Oasis 020

Sire: L2 Captain Lucey (**Infinity x **Milk & Honey)

Dam: **Oasis (**Cavalier x **Sex Life)

From high grading bulls to donor prospects, Infinite Oasis has left her mark on the Collier Farms program and proven she is one of the elite donors in the breed today. Infinite Oasis is the ideal Beefmaster donor because she can be mated a number of ways and always delivers big, strong made, dark red progeny with quality and performance. Some of her past progeny have gone on to be leaders in other AI and ET programs and this year's offering can do the same you. *Dam of lot 35.*

Daughter pictured: Lot 35 - CF 554/9.

****Logan's Bengal Baby 134/0**

Sire: ** *Logan (Quasar x Jezabelle)

Dam: ** *Bengal Baby (*Painted Tiger x Cathy's Treasure)**

As destiny would have it, an own daughter of the great Bengal Baby donor was sure to rise to the same status and become her successor. It was also extremely likely that this individual would be from one of the all time great sires of the breed. Then, as certain as the sun rises, this foreseen individual burst onto the scene in a big way. At only four years of age, Logan's Bengal Baby began to produce some of the highest selling and most attractive cattle ever offered in the Collier Farms Advatntage program. Owner Wayne Bryant has created numerous mating combinations with this amazing young donor and all have turned out to be outstanding. Logan's Bengal Baby continues to set Advantage program records with a \$32,000 open heifer in 2016 and a \$41,000 herd sire in 2019!
Dam of lots 24 & 40.

Daughter pictured: Lot 24 - WB 99/9.

CF Baby Bengal 138/0

Sire: ** *Logan (Quasar x Jezabelle)

Dam: ** *Bengal Baby (*Painted Tiger x Cathy's Treasure)**

Legendary genetics and undeniable consistency are at the heart of this outstanding donor female by Logan and out of the matriarch Bengal Baby. CF Baby Bengal has been a donor for years in the Collier Farms herd and continues to produce some of our go-to lots year after year. When looking back over the years of Collier Farms female sales, its hard to name a cow that has had more impact on a program than Bengal Baby. Not only is this individual productive in her own right, she is also the flush-mate sister to the great Logan's Bengal Baby. Between these two sisters, the dollar volume of sales is unbelievable. These are the kind of genetics that are necessary for success in breeding quality seedstock cattle. Don't miss the opportunity to put consistency and profitability into your program. **Dam of lots 22, 23 & 53.**

Daughter pictured: Lot 53 - CF 192/9

CF Ruby Rose 616/3

Sire: ** *Logan (Quasar x Jezabelle)

Dam: ** *Bengal Baby (*Painted Tiger x Cathy's Treasure)**

CF Ruby Rose is an upcoming young donor in the Hardwick/Prasse herds, bringing in the famous mating of Logan and Bengal Baby. Just like her sisters in other ET programs throughout the industry, Ruby Rose is proving she can mate well with multiple herd bulls and produce an outstanding product time and again. Her daughters in this offering will deliver the consistency and maternal abilities we come to expect from this legendary line of mama cows. **Dam of lots 19A & 19B.**

Daughter pictured: Lot 19B - 9P17

CF Georgia 133/5

Sire: ** *Painted Tiger (*Painted Warrior x ** *Dunkin 1-126)**

Dam: Southern Lady (*Cavalier x Fred Long 106/07)**

Painted Tiger daughters are always in style and when the team of Keith Prasse and Melaine Hardwick found this female, it was destined to be greatness in their programs. CF Georgia was the high selling female in the 2018 Advantage Sale and came with a gorgeous Fusion heifer at side. Since that time, Keith and Melaine have made wise use of their investment and mated this donor a number of ways with great success.

Study the consistency and overall power offered by her Solution daughters in this event. The legend of Painted Tiger lives on in these super maternal cow families, so don't miss the opportunity to make them part of your success. **Dam of lots 50A & 50B, & 51.**

CF BRAVADO 373/5 - SIRE OF LOTS 1A-1G

JT MADAM SECRETARY 659 - DAM OF LOTS 1A-1G

One of the most exciting parts of being involved in purebred genetics is watching a promising new mating come to life. At Collier Farms we strive to improve the future of the program and Beefmaster breed as a whole, and nothing embodies true vision and determination like an impressive group of embryo flush-mate calves. Since the very first Collier Farms Legacy Sale back in 2008, we have made offering a cutting edge pick of calves, a sale tradition. For 2021 we are unveiling a combination that displays our future direction while staying grounded to proven maternal cow families. CF Bravado back on Madam Secretary is a blending of modern power and style with one of the most famous and consistent donor lines in the industry. This pick of calves offers breeders the undeniable consistency needed in elite herds while providing some variances and nuances required for innovative improvement. From gorgeous donor prospects to potential semen sires, this pick of babies offers something for everyone. Now the advantage and the option is truly yours. Put your program at the forefront with some of the best genetics Collier Farms has to offer. The suspense is building; we can't wait to see which one you will pick!

Pick of calves does not include recipient dam. Calf may be picked up sale day or sent back to the ranch for a full weaning protocol and possession at a later date.

1A CF 101/0 COLLIER FARMS ET CALF PICK

DNA 9518035954 PENDING

Breeder: **COLLIER FARMS**
 DOB: **11/12/20**
 BBU No.: **P270777**
 Sex: **FEMALE**
 Color: **DARK RED**
 Class:

Lot 1A is the most balanced heifer in the group, offering that extra deep side, plenty of bone and volume, and the perfect mama cow look we all love in great Beefmaster cows. It won't take long for you to gravitate toward this lot with her early development and overwhelming completeness.

1B CF 102/0 COLLIER FARMS ET CALF PICK

DNA 9518035949 PENDING

Breeder: **COLLIER FARMS**
 DOB: **11/14/20**
 BBU No.: **P270778**
 Sex: **FEMALE**
 Color: **DARK RED**
 Class:

Lot 1B looks to be the potential show heifer of the group with her great depth of flank, cool hip design and super smooth traveling. She may not be as bloomy and the others at this time but she is the kind that will carry her extra weight with class a few months down the line.

1C

CF 103/0

DNA 9518035955 PENDING

**COLLIER FARMS
ET CALF PICK**

Breeder **COLLIER FARMS**
DOB **11/11/20**
BBU No. **P270779**
Sex: **FEMALE**
Color: **DARK RED**
Class:

Lot 1C is the supermodel of the group. She eases around the pen like a model on the runway. Study the extreme length, super feminine front and overall great lines she has to offer. This kind of heifer is one of those rare outliers that can put the extreme look in a calf while keeping them sound and functional.

1D

CF 104/0

DNA 9518035950 PENDING

**COLLIER FARMS
ET CALF PICK**

Breeder **COLLIER FARMS**
DOB **11/12/20**
BBU No. **P270785**
Sex: **FEMALE**
Color: **RED**
Class:

Lot 1D is nothing short of pure horsepower. Many a bull calf at this age doesn't have the rear quarter and loin dimensions possessed by this star athlete. Beyond being stuffed full of muscle, this heifer still exhibits all the maternal and broodiness one could want, helping to ensure power and style.

1E

CF 105/0

DNA 9518035951 PENDING

ET CALF PICK**

Breeder **COLLIER FARMS**
DOB **11/10/20**
BBU No. **P270780**
Sex: **FEMALE**
Color: **DARK RED**
Class:

Lot 1E is the performance heifer at this time in the development of the group. A quick size up proves that she is walking away from her contemporaries in terms of both frame and pounds. While staying true to productive maternal traits, this heifer should also top out the group ratios and be the highest growth EPD girl of the set.

1F

CF 106/0

DNA 9518035953 PENDING

Yes, we just had to do it! Putting Logan and Painted Tiger in the mix with Infinity and Oasis combines some of the most proven and classic Beefmaster genetics ever produced. We are firm believers in cow families and this pick offers you a chance at combining Miss Superior 8 with the legendary Oasis cow. Better yet, their sire, Prime 8, offers high caliber performance in a perfect Beefmaster design.

So, if you are trying to decide, here's the Cliff Notes. The A heifer is the more maternal with extra softness and a higher \$M. The B heifer is the performance heifer with a higher \$T and bigger individual ratios and scan data. Both are well over \$100 T and upper 1/3 \$M. If you need the softness and more mama in your program, go A. If a little more growth and carcass is required, pick B. Or even better yet, just take them both!

What a great combination of genetics and even better heifer! This long made, super feminine beauty places Brock on top of Spartacus, Infinity and Oasis. It's unbelievable how consistent the quality is on the Brock x Oasis combination of genetics. This darling offers style and body with extra length while keeping the birth weight low and the growth high. Her donor dam is a prolific producer of high quality grade embryos in volume and this little donor prospect is sure to do the same.

LOT 15 - LR CF FUSION XL DIAMOND LADY

Fusion XL back on a fancy Copperhead daughter produced this super soft made female. If you are looking to add some polled genetics to the mix, this broody female has it bred in top and bottom. Both Fusion XL and Copperhead were polled and this little mama cow is as well. Study up on the strong \$M and great calving ease data offered by Fusion XL Diamond Lady.

LOT 16 - H-BAR 925

Putting the style and maternal abilities of Fusion and Logan together was the foundation of the Collier Farms program. Now H-Bar Beefmasters has gone on to put Cowboy Cool in the mix to add the carcass and hardiness traits needed in the industry. Look close at the balance of high \$M with great scan results and outstanding individual performance. This is functionality and balance at its best!

Well, if the catalog listing doesn't impress you enough, the stunning good looks definitely will. This could be one of the most sought after females of the offering for a myriad of reasons. Yes, the \$ indexes are outstanding, and yes, the carcass scan and individual gain data is impressive, but look at the maternal consistency and predictability offered by the Denim Wrangler cow on bottom. Every year that cow produces an All-Star, and this one may be the best!

LOT 18B - TR SWEET CAROLINE 260/19

TR Sweet Caroline is another successful example of breeding Vision and Oasis genetics together. In fact, a quick study will show that she is lined up that way. This will produce the kind of bred in consistency needed for a real outcross explosion. Take a super sweet heifer like this and go to one of the big performance bulls that lacks consistency and you may just put it all together here.

LOT 19A - 9P12

CF Ruby Rose is an outstanding donor in the Apalachee program that was purchased some years back at a past BBU convention. Since that time, Apalachee has gone on to produce numerous high quality individuals like this pick of Love Maker flush-mate sisters. Again, we see a \$M in the top 10% while keeping terminal growth right at breed average, making for a very maternal balance.

LOT 20 - GMR MS KATARINA 614

When mentioning Logan's Bengal Baby, one just has to throw in how well she produced with stud bulls like Sugar Britches and Dream Catcher. CF Cortez is another high caliber semen sire coming from that line and he is consistently turning out big stout females like this one. Study the overall size and broodiness for her age and then look over at the big REA over 10" and high growth data and you will see why you should get involved in these genetics.

Sugar Britches daughters are always in style and when mated with Fusion and the great Bengal Baby cow, there is just no way to go wrong here. Take the time to admire the body and smoothness of this female and you will also see how strong and powerful she is without losing femininity. Look at her strong growth performance and high IMF over 4%.

LOT 26 - WB 95/9

Talk about doubling down on the Captain Sugar and Painted Tiger. This combination goes back to some of the best the breed has to offer. Look at the classic style of this big boned and deep made mama cow. Her dam has been in production for years in the Bryant herd and consistently turns out high quality calves. This one by Solution may be one of her best yet, so don't miss out on a super female with big IMF.

LOT 27 - WB 96/9

Check out the impressive EPD's and super big ribeye area on this powerful Solution daughter. Solution is proving he can add the muscle, the growth, and the looks to his cattle. WB 96/9 is extremely deep ribbed with lots of capacity and that extra bone we like in Beefmaster cattle. Here is a great way to add some EPD performance to your herd without losing the look or the maternal bloodlines.

LOT 35 - CF 554/9

Infinite Oasis continue to leave her mark in the Collier Farms program after years of heavy service. This Ruston daughter out of her has that super dark red color and deep sided style we love. Great smoothness of design and very good traveling female. The \$M is high like we want with strong calving ease, marbling, and fertility.

H-Bar stepped out and made a wise investment with the purchase and use of their herdsire, CF Arsenal. The Tank x Infinite Oasis combination was a high performer and seller in the 2018 CF Bull Sale and has gone on to sire several impressive young calves. This is his first offering and what a way to start it off! Look at the performance data and exquisite style offered in the A lot.

CF Arsenal is at work again here and this time on a Vision bred Chapman female on the bottom side. Again, we see the high \$ indexes we like, strong individual data and an even better made female. Look at the length of side, the fancy fronts and the overall mass and power possessed by both the A and B heifers. This is an extremely tough pick, but choose wisely, they may only sell one!

Chapman Beefmaster is proud to offer you a chance to pick from some of their best for the 2021 season. These fancy females have all the genetics and performance one would expect from heifers of this caliber. A quick study will show that the sire of these dolls is a full brother to the WB Solution bull showcased through this offering. When putting that combo back on top of Tabasco, Betty's Last and Logan, you have a no-miss opportunity.

LOT 37B - H.T. CHAPMAN 031

It's a tight race between the A and the B lots offered in this classy pick. The A heifer has the style and stretch with the maternal of Tabasco on the bottom. The B heifer has a double shot of Dream Catcher for a high \$T in the top 30% and a big REA over 10" yet still maintaining a long line of great mamas on the bottom. Here is an opportunity at some real herd building females, so just step up and buy them both.

Logan and Tiger's Destiny was one of our most popular matings at Collier Farms. This strong boned, well designed female exemplifies why Collier Farms built its foundation around the Logan x Painted Tiger cross. Chapman Beefmasters wisely combined those same principles with the Top Flite line that has been in use for generations. There is tons of longevity and fertility wrapped up in this gorgeous female.

Yes, she is the same age and yes she is only a November born female. Riptide quickly proved in our program that he had both the maternal and terminal growth attributes. This heifer may be pushing the thresh hold for size but image powering her up with the moderation and muscling of Brock or Bravado. The mating decision will be easy, the pick of heifers, not so much!

LOT 44 - JK SALTFORK RIVER

JK Saltfork Honey gives us another look at how well Riptide works back on Synergy genetics. Study the overall mass and bone and power in this brute of a female. One just has to appreciate the overall capacity yet maternal style offered here. Throw in a big REA and strong IMF for a very balanced individual.

Riptide on Vision was an easy choice given the years of proof we've had with Vision and Tabasco. This massively deep sided female has the perfect bone structure and conformational design. Look at the overall broodiness and body and then look over at the \$M. Top 1% by far with a value over 50! Don't forget to check her scan as well. The REA is bumping 13".

One of the most consistent Riptide mating at Collier Farms is Riptide on Vision. We saw what it did in the lot 45 female and here is a look at the same combo with CF Rosie on the bottom. The Rosie donor is a past show heifer that really puts the style and class in her cattle while keeping growth and fertility at its peak.

LOT 47 - CF 196/9

We are starting out the 2021 bred heifer offering with what may be the perfect blending of growth performance and maternal genetics. WB Solution is adding another dimension to our program by producing the extra weaning and yearling while keeping maternal lines strong. The Fusion and Miss Pepper Jack make this darling even more attractive and help to ensure years of longevity. Top 3% \$M! To top it off, she palpated 4 months safe to the AI sire, CF Bravado.

DIAMOND MAIDEN 1931/4
L2 MAIDEN LADY 154/00

LOT 54B - GMR SPANISH DIAMOND

Sugar Britches and Diamond Maiden with a double shot of Logan really hit well in this broody package. This female combines two of the most sought after cow family lines in the CF program with Diamond Maiden and Logan's Bengal Baby. Study the huge REA/cwt offered by a very attractive heifer. She palpated 3 months bred to the clean up sire CF 495/8 and 496/8.

LOT 61 - CF 205/9

It's easy to like these red heifers with the dark tips on the eyes, nose and feet. They always seem to be good mama cows and this one has some great ones in her lineage. Her sire is a Logan son back out of the Superior Dream donor cow that we are using on some of our best brood cows. With Fused Silk on bottom you bring in Silk Stockings as well. This is a very feminine heifer that palpated 2.5 to the clean up bull CF 495/8.

LOT 64 - 7C 908-9

Kingston has really made a splash in 2021 with the high grading bulls at Live Oak and San Antonio Subasta and also some high sellers in both the CF Bull Sale and Live Oak. His daughters are always extra angular through the front, level hiped and very deep sided. This heifer boasts all those genetic qualities and should hit a homerun with Bravado in the belly. She palpated 4 months bred to CF Bravado.

Kingston is at work again here and this time with Red Bull 511 on the bottom side. Over the years, V7 and 7C Anderson have made the Red Bull 511 line very successful. Now with Kingston on top, we are seeing even more consistency and uniformity. That is what you can plan to get with proven females like this. She palpated 3 months to the Brock x Madam Secretary son, CF 8535.

LOT 66 - GMR SLICK RED LADY 560

Here's a super stout made heifer with a massive REA and a double shot of Logan breeding. Slick Red is doing a great job of adding fleshing ease and muscle to his offspring as seen here with an REA of 12.5 on a heifer that weighed 757 at scan time. Do the math, that's 1.65" per hundred pounds of heifer. Throw in good maternal traits and high stayability for added value. She palpated 2.5 months to CF 495/8 and 496/8.

LOT 75 - CF 268/9

Riptide and Vision genetics are always a hit. Here you have the cut from Riptide and the balance and volume from Vision. This girl has the index values right where we want them with a big \$M and also a stout REA to back up the muscle factor. She palpated 4 months to the AI sire CF Bravado.

Just say POLLED! This soggy bred heifer has polled genetics, a big REA/cwt and and IMF over 4%. Couple that with all around good looks, high milk EPD in top 15% and good \$M for a really balanced package. Here's a great way to add some Polled genetics to your herd in a productive female. She palpated 4 months to the AI sire Fusion.

LOT 77 - CF 521/8

Fusion and Xcited Lady have proven to be an exceptional combination for both herd sires and donor prospects. This full sister to the great CF Nueces bull in the Colvin herd, has those high class attributes we get from Nueces with the added benefit of being polled. Beyond the individual qualities of this female, study her production. The heifer calf at side of her could be the best made female in the entire offering and to top it off, she is smooth POLLED as well. Everyone will quickly gravitate toward this heifer baby, but remember what cow produced her.

If you are looking to frame up and style up some cattle, this super fancy fronted, high growth mama cow will fit the bill. Hey Kat did a good job adding some rib shape, growth and volume to his cattle while the double shot of Tabasco on bottom combined with Logan and New Dimension will really help this cow produce true. Study the great lines and bone in her bull calf at side by a LBW Maverick son.

LOT 79 - CF 651/8 & Calf

CF 651/8 is the typical Vision on Fusion cross we get consistently produced from the great combination of proven genetics. The sire of CF 651/8 was a full brother to Vision and her mother is a pacesetter Fusion daughter going back to some upgrade cattle on bottom. Her stout bull calf at side is by one of the bulls used on the bred heifers, CF 495/8.

LOT 80 - 3B 8-5 & Calf

What a power house cow this big broody mama is! Study the depth and volume and mass offered in this package. Again, we see the Vision and Fusion combination proving up the bottom side with a Logan bred bull on top. The 12/2 bull was a high selling and high grading fall bull some years back at the CF PBS and didn't he produce a stand out daughter here. To top it all off, the stout baby at her side is by impact sire, CF Bravado.

LOT 87 - CF 296/9 & Calf

Just for a little something different, we decided to put Chick Magnet back over some super predictable Fusion and Logan genetics to see what that could offer. CF 296/9 is ultra-refined and classy. This heifer always presents herself in pictures and around the pasture making her easy to like. The heifer baby at side is also super attractive and she is by the Fusion son, CF 495/8.

LOT 88 - CF 305/9

Here is another look at Chick Magnet, but back on a little different bottom side to get a much different style. This big deep female has the extra bone and body we've come to love from her Painted Tiger on Synergy bottom side. Here are classic proven genetics on bottom with a newer performance flavor on top. Study the calf and the EPDs and you will find an attractive package.

LOT 89 - CF 312/9

Polled breeders will want to look this pretty girl over closely. This deep made 410/0 daughter is the very reason we used the bull for years and still AI many cows to him. Deep made, broody, gentle, heavy milking and polled are just the start of her attributes. With a high \$M, good scan, and Tabasco on bottom she is very balanced.

Kingston back on Vision hit another homerun on this young cow. From great scan data to solid growth and a very nice young bull calf, this upcoming brood cow has lots to offer. Kingston genetics are really proving how consistent and valuable they are on the market. Here's your chance to get one already in production and waiting for the bull of your choice.

Kingston strikes again and this time with a gorgeous polled female going back to Slick 16 on bottom. From high dollar herd bulls to fancy females, Slick 16 has been a top end producer for years. With Kingston on top, we get an ultra-stylish female with a big REA pushing 12" and the IMF over 4% we all want in performance cattle. She is due to calve by sale time to CF 490/8 the Fusion x Xcited Lady combo.

LOT 93 - CF 820/8

If you are looking for a front pasture herd bull with all the predictability and performance you need, then CF 820/8 will be a perfect fit. We've been holding this one back for the Advantage Sale so that we could offer you something special that also had a long genetic history in this market. Brock and Madam Secretary have proven time and again that they produce some of the best looking and productive cattle in the breed. Here is your opportunity to put that kind of consistency into every calf you produce with this bull. He has the looks and he has the genetics, now he just needs to find his way into your pasture.

Notes

BIDDING: Each animal will be sold to the highest bidder without reserve.
BIDDING DISPUTE: The Auctioneer in charge will settle any dispute as to bids, and his decision on such matters shall be final.
TERMS: Terms of the sale are cash due upon sale, unless prior credit arrangements for the sale have been agreed upon in writing between the Buyer and Seller, in which event, the terms of the written credit arrangement between the Buyer and Seller for the sale shall prevail. The failure of a member buyer to pay the appropriate party the sale amounts when due may constitute a cause for exclusion from BBU pursuant to Article I, section 9 of the By Laws of BBU.
PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as the auctioneer declares it sold.
CERTIFICATE OF BREEDING AND/OR TRANSFERS: All required paperwork will be transferred to the buyer at the seller's expense, upon settlement.
HEALTH: All animals will have appropriate certificates of veterinary inspection for travel to the sale site and will to the best of the seller's knowledge be eligible for interstate shipment, however, buyers need to be aware of their individual resident state's requirements for shipment of cattle. Any and all testing will have been completed within thirty (30) days of the sale date.
ANNOUNCEMENTS: If any changes in information of any kind are announced from the auction box, said announcements shall take precedence.
BREEDING GUARANTEES:
 1) The seller guarantees that all animals are breeders, with the exception of: (a) calves under 12 months of age at the time of the sale; (b) animals shown after the sale has occurred (in such cases, the breeding guarantees, if any, will be those guarantees as are agreed upon between the seller and the buyer); (c) animals who suffer injury or disease following the sale; (d) animals administered any super ovulation drug or growth hormone after purchase; and, (e) animals subjected to negligence by or willful misconduct on the part of the buyer.
 2) Females: (a) open females are so guaranteed; (b) any female is considered to be a breeder if she is certified to be pregnant by a licensed veterinarian at the time of sale and/or has a nursing calf at side; and, (c) safe in calf females have been examined by a veterinarian and so guaranteed.
 3) Bulls eighteen (18) months or older are guaranteed by the seller to have passed a breeding soundness exam (BSE) and have been certified a satisfactory potential breeder by a licensed veterinarian within 60 days prior to the sale.
 4) If within one-hundred twenty (120) days from the date of sale, the bull has failed to pass a BSE certified by a licensed veterinarian, buyer must send seller written notification of the failure of the test within one-hundred twenty (120) days from the date of sale and include the BSE test results. Within sixty (60) days after seller's notification of the failed BSE test, buyer and seller shall identify a mutually agreeable licensed veterinarian or technician certified by a licensed veterinarian to perform another BSE on the bull at the buyer's expense. The results of the test shall be deemed final and conclusive of this

TERMS AND CONDITIONS OF SALE
 matter and binding on buyer and seller. If, in the opinion of said veterinarian or technician, the bull is unable to pass a BSE and be confirmed a satisfactory potential breeder, he shall so certify in writing to the seller and the buyer which shall include the official from used by the Society of Theriogenology or the official BBU BSE form. In such event the buyer may return the bull to the farm of seller, provided the bull is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller. **Unless otherwise agreed by the buyer and the seller, the seller makes no guarantees with respect to the ability to freeze semen.**
PRIVILEGES OF RETURN OR ADJUSTMENT OPTIONS:
 1) With the exception of any applicable transportation expenses described herein, a seller shall never be liable to a buyer for an amount greater than the original selling price of any animal sold under these Sales Terms and Conditions.
 2) Unless otherwise stated, all claims for adjustment or refund must be made in writing to the seller within 180 days following the sale of the animal in question.
 3) If an animal is claimed to be a non-breeder, the animal may be returned to the seller if it is in a good condition and complies with the health requirements of the seller's state. At the option of the buyer, the seller may issue a credit to the buyer for use in a future purchase or provide an animal of equal value subject to the approval of buyer. If the buyer exercises either such option, the claim shall be deemed fully and satisfactorily resolved. However, in the event that the buyer requests a refund of the purchase price, the seller may, at its option, either issue a refund of the full purchase price or, shall have 180 days from the date the animal is returned to the seller's farm to conduct a trial to demonstrate the returned animal is a breeder. Refund of the full purchase price or demonstrated proof that the animal is a breeder during the test trial shall be deemed full satisfaction and settlement of the claim. Any expense incurred for transporting an animal claimed to be a non-breeder will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it will be the obligation of the buyer to take delivery of the animal and pay all transportation expenses.
 4) If an animal is sold and subsequently becomes ineligible for registration under the rules of BBU for reasons other than incorrect parentage, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the option of the seller, refund the purchase price upon the return of the animal to the farm of the seller.

5) If an animal (including the offspring of a pregnant recipient) is sold and through parentage verification is proven to have incorrect parentage, as represented by the animal's certificate of registration, and for which correct parentage can be determined, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the seller's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary of the date of the sale.
 6) Unless stated otherwise, all transportation expenses incurred will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place.
MISCELLANEOUS:
 1) The above terms and conditions of sale constitute a contract between the buyer and the seller and are equally binding upon both parties. Each sale or resale of an animal constitutes a separate transaction.
 2) Neither BBU nor any director, officer, employee or representative of BBU or any of its related entities shall be liable in any way with respect to a transaction conducted under these Sales Terms and Conditions; nor shall BBU, its directors, officers, employees or representatives be responsible in any way for enforcing the terms and conditions of any agreement between a buyer and a seller. Each buyer and seller agree to hold BBU, its directors, officers, employees, representatives and related entities harmless from all damages, expenses, claims, losses and other liabilities associated with a transaction conducted under these Suggested Sales Terms and Conditions.
 3) No sponsor, sale manager, or other person connected with the management of a sale shall be liable in any way with respect to transactions conducted under these Sales Terms and Conditions.
 4) These sale terms and conditions and all rights, obligations and duties arising hereunder and all disputes arising hereunder will be construed in accordance with, and governed by, the laws of the state in which the sale occurs, without giving effect to such state's choice of law rules.
 5) UNLESS OTHERWISE EXPRESSLY STATED IN THESE SALE TERMS AND CONDITIONS OR ANY OTHER WRITTEN AGREEMENT BETWEEN THE PARTIES RELATING TO THE SALE OR BEEFMASTER, BEEFMASTER ADVANCER, E6 OR UPGRADING CATTLE UNDER THESE SALE TERMS AND CONDITIONS, SELLER MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, EVEN IF SUCH PURPOSE IS KNOWN TO THE PARTIES. THE REMEDIES PROVIDED IN THESE SALE TERMS AND CONDITIONS ARE THE EXCLUSIVE REMEDIES OF THE BUYER, OR ANY PARTY CLAIMING THROUGH THE BUYER, AND UNDER NO CIRCUMSTANCES WILL THE SELLER BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES UNDER ANY INDEMNITY PROVISION OR OTHERWISE.
